andre kunder..

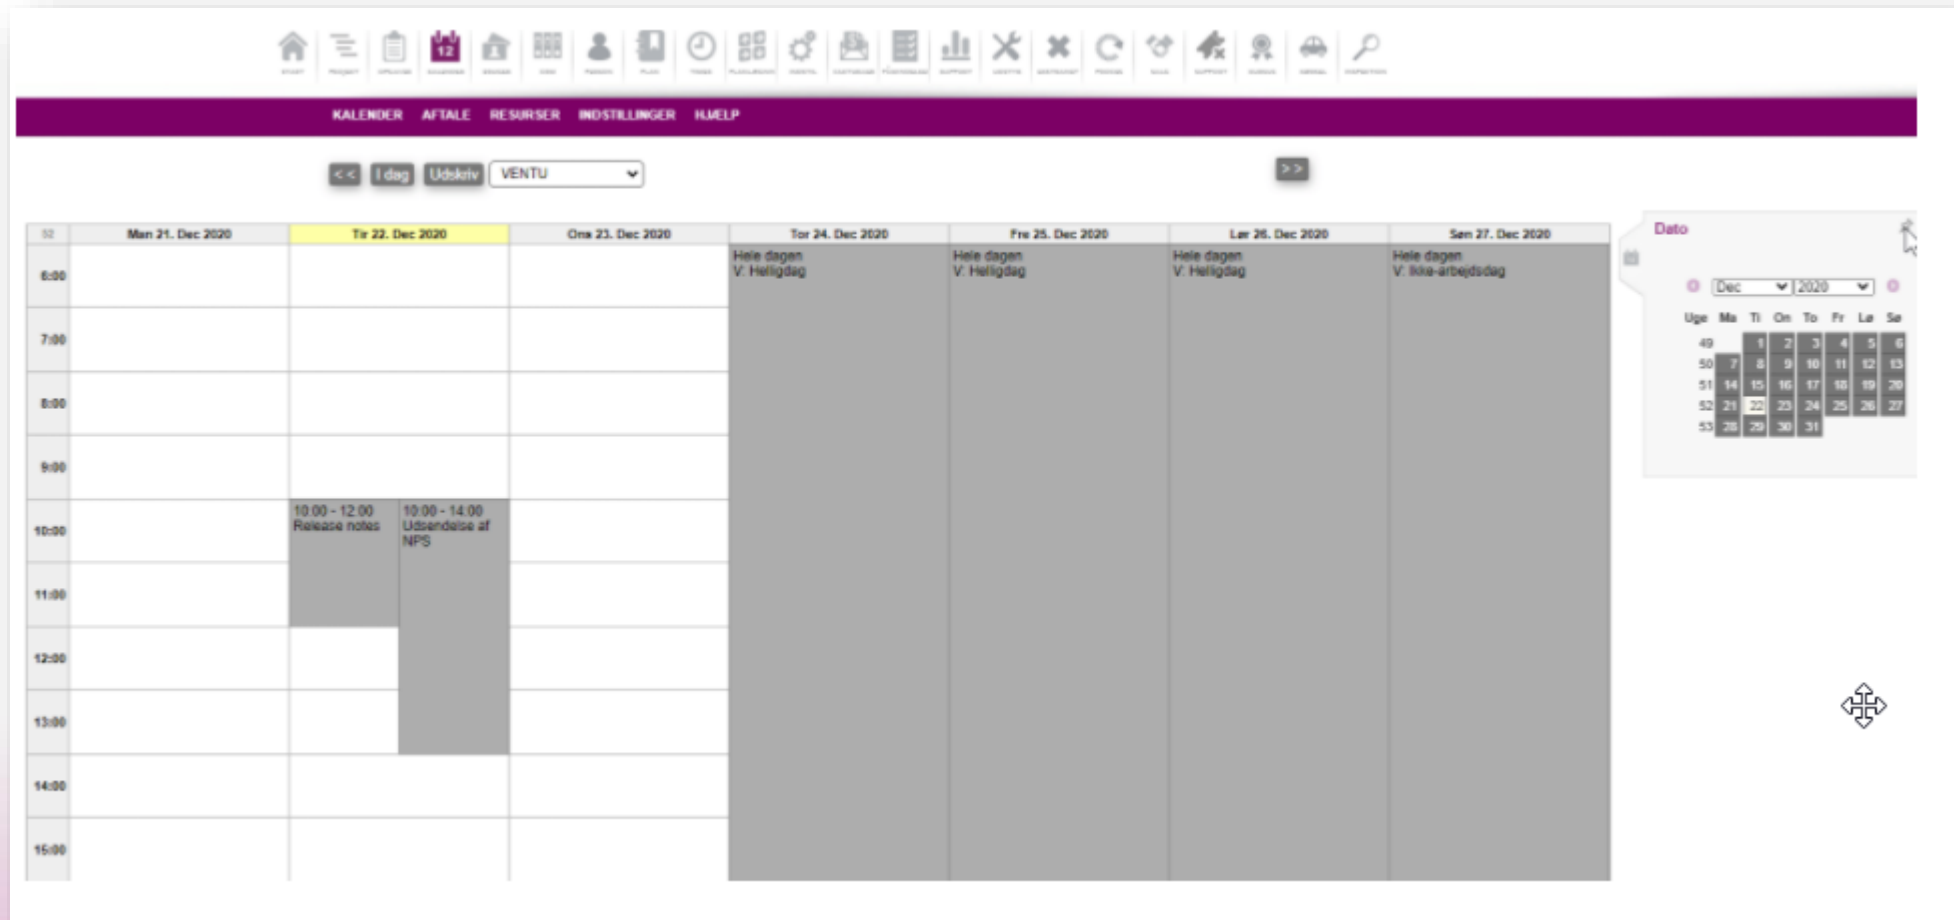

...der kan bakke
op om forslaget,
såfremt de synes
det er en god ide.

Forbedringer i Microbizz

Highlights fra sidste release

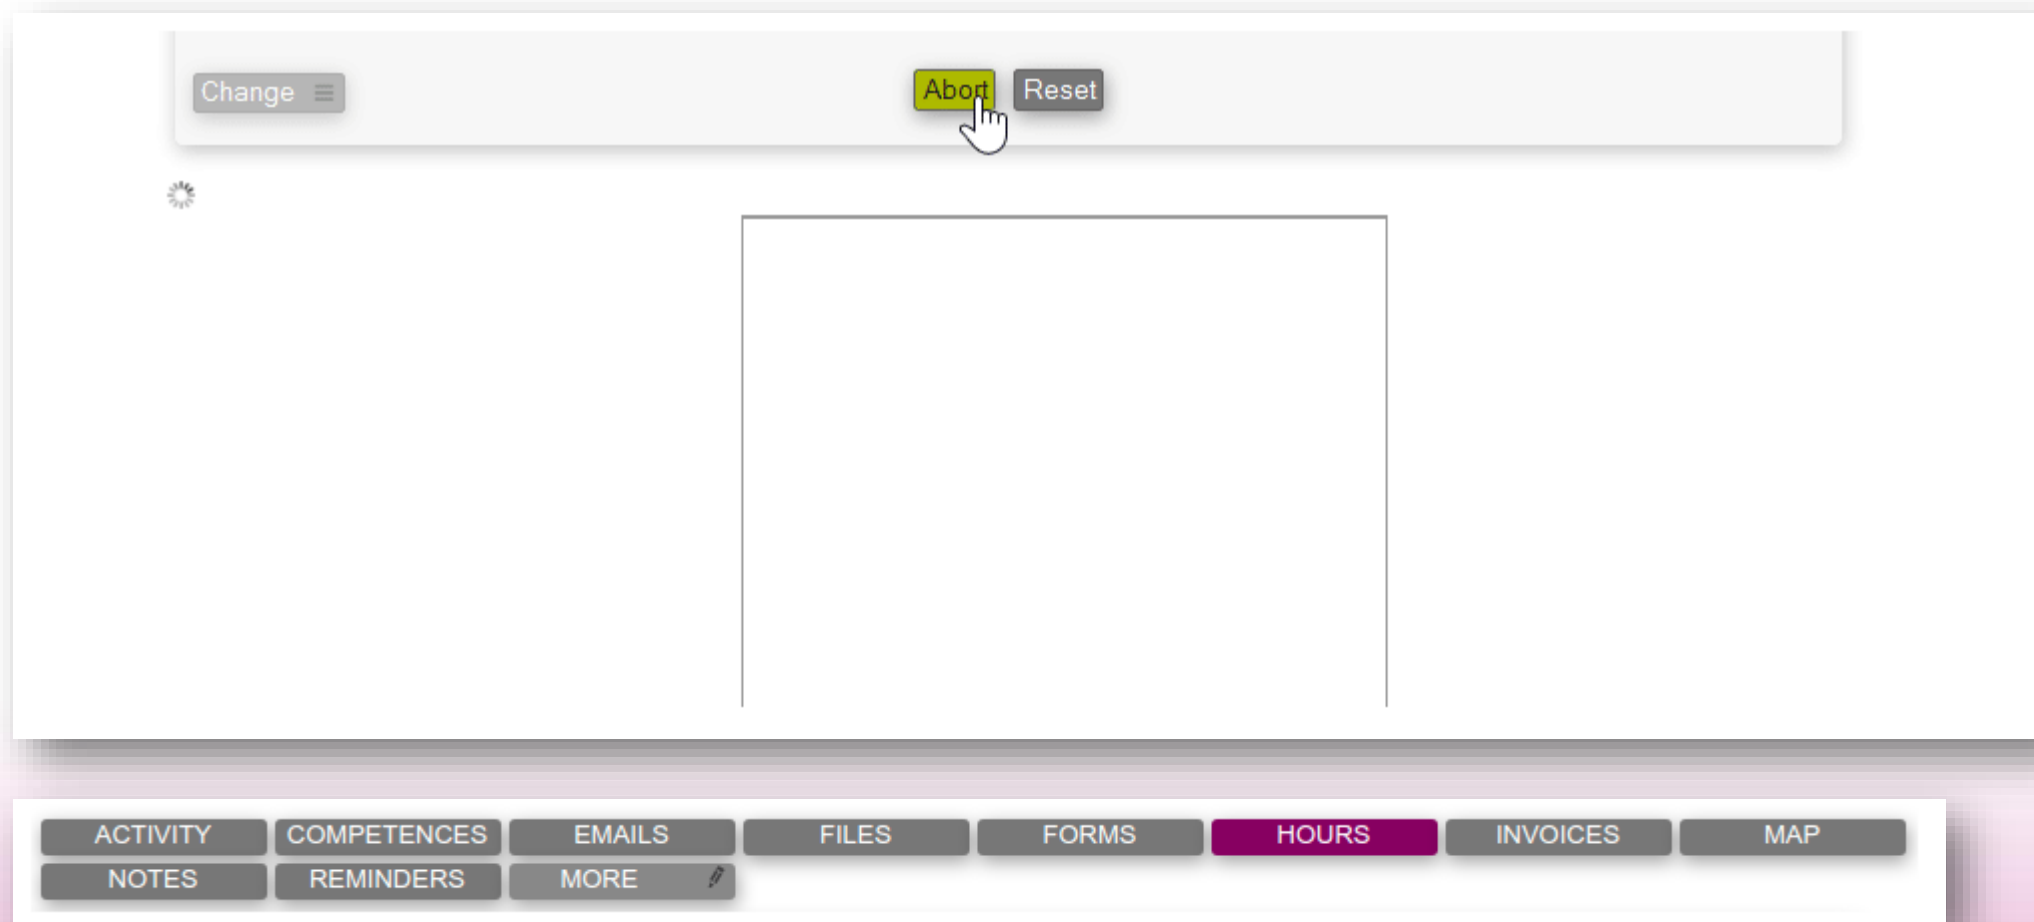

Udnyttelse af skærmbredde

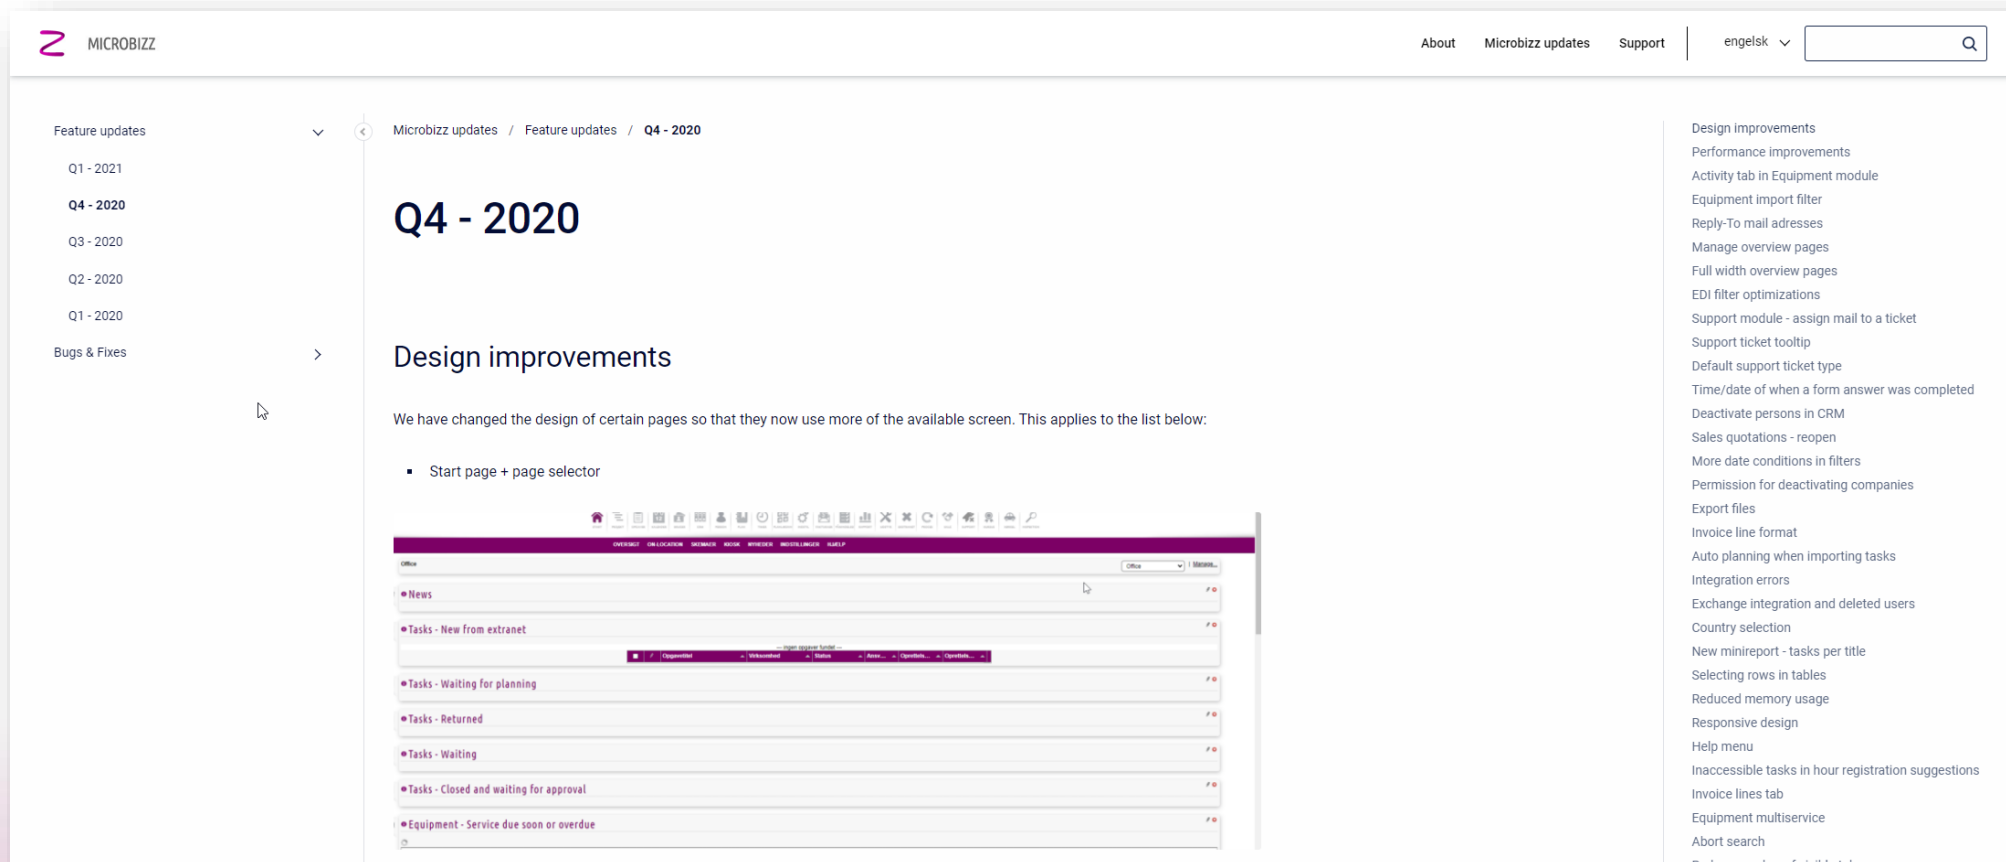

The screenshot displays a web-based calendar interface. At the top, there is a navigation bar with icons for home, list, calendar, settings, and search. Below this is a menu with options: KALENDER, AFTALE, RESURSER, INDSTILLINGER, and HJÆLP. The main calendar area shows a week starting from Monday, Dec 21, 2020, to Sunday, Dec 27, 2020. The time slots range from 6:00 to 15:00. The days from Thursday to Sunday are shaded grey, indicating they are holidays. On Tuesday, Dec 22, 2020, there are two events: 'Release notes' from 10:00 - 12:00 and 'Udsendelse af NPS' from 10:00 - 14:00. A date picker on the right shows the current month as December 2020 and a calendar grid for the week.

Mindre ventetid & bedre overblik

Få det fulde overblik på Micropedia

The screenshot shows the Microbizz website interface. At the top left is the Microbizz logo. The top right contains navigation links for 'About', 'Microbizz updates', and 'Support', along with a language selector set to 'engelsk' and a search bar. The main content area is titled 'Q4 - 2020' under the 'Feature updates' section. A sub-section titled 'Design improvements' contains a paragraph: 'We have changed the design of certain pages so that they now use more of the available screen. This applies to the list below:'. A bulleted list follows, with the first item being 'Start page + page selector'. Below the list is a screenshot of a software interface showing a list of tasks and equipment. On the right side of the main content area, there is a vertical list of other design improvements, including 'Performance improvements', 'Activity tab in Equipment module', 'Equipment import filter', 'Reply-To mail addresses', 'Manage overview pages', 'Full width overview pages', 'EDI filter optimizations', 'Support module - assign mail to a ticket', 'Support ticket tooltip', 'Default support ticket type', 'Time/date of when a form answer was completed', 'Deactivate persons in CRM', 'Sales quotations - reopen', 'More date conditions in filters', 'Permission for deactivating companies', 'Export files', 'Invoice line format', 'Auto planning when importing tasks', 'Integration errors', 'Exchange integration and deleted users', 'Country selection', 'New mini-report - tasks per title', 'Selecting rows in tables', 'Reduced memory usage', 'Responsive design', 'Help menu', 'Inaccessible tasks in hour registration suggestions', 'Invoice lines tab', 'Equipment multiservice', 'Abort search', and 'Reduce number of visible tabs'.
